FRESH AXIS ADVENTURE IN BALKANS?

German Gains In S. Ukraine

Berlin Claims Capture Of Kherson, Novgorod And Two Other Towns

THREE MAIN THRUSTS AGAINST LENINGRAD

BERLIN, Aug. 21.

To-day's German High Command 'communique' claims that in Southern Ukraine, S. S. Army units occupied the seaport and industrial town of Kherson at the mouth of the Dnieper. It also claims the taking of the towns of Novgorod, Kingisepp and Narva.

It states that the battle in the area round and north of Gomel ended in a heavy defeat for Soviet armed forces.

84,000 PRISONERS TAKEN

The "communique" adds:

"Infantry mechanised and tank divisions co-operating with the Luftwaffe have beaten, annihilated or captured parts or 17 Rifle Divisions, five Cavalry Divisions, two Tank Divisions, one Mechanised Division and two airborne brigades on the march.

Losses of the enemy are again very heavy. The number of prisoners has risen to approximately 84,000 men with 848 guns, 144 tanks, and two armoured trains.

Novgorod, Kingisepp and Narvar were taken after the piercing of a heavily fortified and stubbornly defended position between Lakes Ilmen and Peipus. Our troops continue to advance victoriously. Units of the Luftwaffe again inflicted heavy losses on Soviet troops fleeing from Odessa and Ostshakov by the sea and on enemy columns east of the Dnieper bank.

In the Black Sea they sank a transport of 6,000 tons damaging three large merchant ships.

Push Towards Leningard

STOCKHOLM, August 21.

German troops advancing Via Gatchina were last night barely 20 kilometres from Leningrad, according to Berlin information quoted by the Berlin correspondent of the paper 'Aftonbladet' who adds that the offensive against Leningrad comprises three main thrusts, the strongest being Via Gatchina.—Reuter.

Hitler Nervous About Russian Winter

LONDON, August 21.

Reuter's special correspondent in Ankara wires:—

German officers in Russia have received instructions from Berlin to tell the troops that the severity of Russian winter is grossly exaggerated and all that the men need to withstand the rigours of winter is thick clothing plus Valinkis (Russian felt boots), which are to be taken from peasants. These instructions which I learn from an authoritative source, show that Hitler realises that a winter campaign is inevitable and his men are nervous about winter.—Reuter.

Air Raid Over Suez Canal

CAIRO, August 21.

The Suez Canal area had another air raid last night. A "communique" states that two were killed and 28 injured and slight damage was done to property.—Reuter.

Cawnpore Collegians On Strike

CAWNPORE, August 21.

Following the resignation of Mr. K. V. Phadkey, Principal of the Marathi Intermediate College, Cawnpore the students of the college have gone on strike.

The resignation it is understood, had been tendered owing to the alleged interference of certain office bearers of the Managing Committee in college administration. Mr. Phadkey has served the institution for about 20 years. —A. P.

RUMANIA CLAIMS NEW TRACT OF RED TERRITORY

LONDON, August 21.

The Rumanian press is beginning to talk significantly about what it calls "Transnistria" on the other side of its old frontier with Russia.

"The day of deliverance of our Rumanian brothers beyond the Dniester has arrived." Rumanian papers are proclaiming, according to a Bucharest telegram.

"Transnistria" is described as "old Rumanian land extending from the Dniester to the Bug and the Dnieper."

The papers cite a map said to have been printed in Berlin in 1824 as proving that Rumanian population has extended as far as the Dnieper and beyond since the year 900.—Reuter.

SOVIET RAID OVER BERLIN

MOSCOW, Aug. 21.

Soviet aircraft raided Berlin area last night when incendiary and high explosive bombs were dropped on military and industrial objectives, says the Moscow Radio.

Explosions and fires were observed. All Soviet planes returned to their bases.—Reuter.

DAY LIGHT RAIDS IN N. FRANCE.

LONDON, August 21.

There were many dogfights of daring during the R. A. F. day-light raids in northern France, in which one German fighter was destroyed and two enemy E-boats damaged. Fourteen British fighters are missing but one pilot is known to be safe.—Reuter.

MYSTERY ABOUT FRANCE'S GOLD

LONDON, August 21

Where is the Bank of France's gold, asks the "Financial News" to-day, commenting on the first weekly statement published by the Bank since the collapse showing that the gold reserve of the Bank amounts to eighty-four and half milliard francs. This figure does not differ materially from the amount of gold holding before the Franco-German Armistice. The question is how much of this gold is under the effective control of Vichy authorities? As is well-known a large amount was transferred to the United States before the collapse and was frozen by an order of the Washington administration. Another substantial amount found its way to Martinique and is kept there.

PACT WITH U. S.

Agreement was recently reached between the Vichy Government and the United States Government by which the former undertook to consult the latter before moving any gold from Martinique. In return American authorities agreed to release some of the French gold frozen in the United States for the urgent requirements of the inhabitants of Martinique. A substantial part of the French gold reserve was evacuated to Dakar. Complete mystery surrounds the fate of this gold. According to one theory a French warship transferred it to Martinique, but if is more probable that the gold is still at Dakar.

One wonders how long it will be before the Vichy Government agrees to surrender a part of its gold to Germany.—Reuter.

New Machine Tools Control Order

SIMLA, August 21

All machine tools, irrespective of their age, now come under the machine tool control and have to be licensed. A Notification to this effect has been issued recently by the Supply Department as an amendment to the Machine Tool Control Order of February last.

But Turkey Has No Fear Of German Hostilities

LONDON, August 21.

Reports from a very reliable source give first indications, since the Nazi invasion of Soviet Russia, of Axis troop movements in Southern Bulgaria, wires Reuter's special correspondent in Ankara.

In addition, Italian troops at Plovdiv with Italian staff officers are reported to have made a reconnaissance of the Maritza Valley. Other reports sweak of Italy increasing her garrisons in the Greek Islands.

Despite the possibility of such troop movements being a prelude to a fresh Axis adventure in the Balkans, Turkey expresses complete confidence that Germany has no hostile intentions towards her.—Reuter.

SARDAR PATEL IN POLYCLINIC

BOMBAY, Thursday.

Sardar Vallabhbhai Patel was taken to Polyclinic, Bombay, this evening for being examined. Dr. Nathoobhai Patel, Sardar's family doctor told the press that the results of the medical examination would be announced on Friday.

Iran's Reply To Anglo-Soviet Note

EXPECTED BEFORE WEEK-END

LONDON, August 21.

No written reply is yet received from the Iran Government to the representations made on August 16, on the subject of the present excessive number of German agents in Iran, but preliminary indications regarding its nature derived from oral communications made by Iran authorities have not given a favourable impression of its contents, Reuter's diplomatic correspondent learns.

The note itself is expected before the week-end.

Warned Against Nazi Agents

It will be recalled that the British communications not only warned the Iranian Government of the dangers inherent in the presence of large numbers of Germans but emphasised the special nature of their employment in key positions in Transport communications and other essential services and called the attention to what had happened in other neutral countries in which German agents had similarly penetrated into all branches of public services.—Reuter.

Iranian Govt.'s Attitude Towards Germans

(From Our Correspondent.)

LONDON, August 21.

The "Daily Herald" Teheran correspondent reports that the Iranian Government was considering the reply while three additional army classes were being called up as well as another due normally to report this week for training. Another class due for release is being retained with colours. These measures will raise the peace time strength of 1,20,000 to about 2,00,000. Whatever the reply to the Anglo-Russian note of warning, Iran's official attitude towards Germans in Iran is that they cannot endanger the country's neutrality because police have the activities of all foreigners completely under control.

The correspondent adds that a drive to any distance along Iran's roads reveals how watchful the police are. Travellers are stopped at least every two hours and asked for identity papers or passports.

Papen's Secret Visit To Iran?

(From Our Correspondent.)

LONDON, August 21.

According to a Cairo report von Papen, Hitler's Ankara envoy, has paid a secret visit to Iran. He is believed to have gone to make first-hand report on the situation for transmission.

It is understood Dr. Aurthur Groba, who poses as Germany's 'Lawrence of Arabia', has flown from his headquarters at Abadan near the Iraq frontier, to consult with Nazi leaders in Teheran.

War Planes From U. S. Arrive In Thailand

JAPAN FEARS HITLER'S SUCCESS IN RUSSIA MAY LEAD TO CHALLENGE OF HER LEADERSHIP IN ASIA

ROME, August 21.

Twenty warplanes have arrived at Bangkok, according to a Tokyo message reported by the Rome Radio.

They were delivered by the American Government having been ordered by Thailand last year.

The present situation seems to have speeded up delivery.

Japanese Reaction To U. S. OIL SUPPLY FOR RUSSIA

TOKYO, August 21.

Sharp Japanese reaction to the reports of American oil for Russia appears in the "Kokumin Shimbun" to-day.

It says that Japan absolutely cannot remain indifferent to passage of ships with war supplies through waters so close to Japan. The paper urges the Government to take "firm measures."

Though admitting that all such aid to the Soviet is apparently designed to strengthen Russian resistance against Hitler's army in eastern Europe the "Kokumin Shimbun" asserts that the Anglo-American move will result in spreading European hostilities to the Far East.—Reuter.

Dutch East Indies' Defences

SINGAPORE, August 21.

"Anyone thinking of taking a crack at Singapore should think again", said Senator Foll, Australian Minister of the Interior broadcasting here last night. Senator Foll added "the firmer attitude we and our Allies take, the less likelihood there is of war in the Pacific. We have reached the stage where talk can be reduced to two plain words 'hands off'."

Senator Foll said of his visit to the defences of the Netherlands East Indies "it was an impressive experience".—Reuter.

NEW MENACE FOR JAPAN

SINGAPORE, August 21.

An interesting sidelight on the Japanese attitude to the Axis is shown in a leader in the Japanese-owned English language newspaper "Singapore Herald" which says that Hitler may hope to nazify the greater part of European Russia and confine the Bolsheviks to Siberia and Asia, thus increasing rather than easing the difficulties on the mainland of Asia for Japan.

"We are convinced that Hitler cares nothing for Japan except for the use he can make of her to further his own ambitions and that if he succeeds in defeating Russia, he will create a new menace for Japan either in pushing Communism further into Asia or in an actual challenge of Japanese leadership in Asia," says the paper. It adds "we believe some responsible people in Tokio realise this aspect and that more of them will come round to it if the democracies play their cards with skill."

The paper cites the conclusion of the agreement between Russia and Japan on the Manchukuo border as "an endeavour to keep war away from the far east."—Reuter.

JAPANESE PLAN TO MAKE EAST ASIA SELF-SUFFICIENT

TOKYO, Aug. 21.

The Ministry of Commerce and Industry plans to create a semi-official Foreign Trade Control Association which will place all foreign trade between Japan and other foreign countries under the control of one organisation, authoritative quarters reveal says the Domei News Agency.

It is understood that the projected organisation will be based on the necessity of completing self-sufficiency within the East Asia prosperity sphere as early as possible.

The plan also aims at the realisation of adjustment of foreign trade in the light of the change in the international situation resulting from the recent freezing acts by Britain and the United States and their associate countries.

If the projected plan materialises it is expected that all organisations concerned with foreign trade such as the South Seas Trade Association and others will be amalgamated into a new organisation with the Minister of Commerce and Industry acting as its head.—Reuter.

"BE READY FOR GREATER SACRIFICE"

Shah Of Persia's Call To Iranian Army And Cadets

TEHERAN, August 21.

A call to the Iranian army to be "ready for every sacrifice" was made by the Shah when he addressed cadets passing out of the military academy here.

The Shah said that this year the cadets are not having their annual leave. Later they would understand the reasons for this.

"We think that these reasons will strengthen their feelings of sacrifice. There is no need to call attention to your duty and the situation at the present hour.

The army and its officers should take the greatest interest in the present situation and, in case of need, be ready for every sacrifice."

The Crown Prince and members of the Iranian Government and high officers attended the passing out ceremony.—Reuter.

SAMPLE-ROOMS OF WAR SUPPLIES

SIMLA, August 21

India already produces well over 20,000 different items of stores for the armed forces, and this number is constantly increasing, says a Press Note.

Since the outbreak of the war nearly 500 new articles, have either been produced for the first time or their capacity increased.

To increase still further the range of stores manufactured in India, sample rooms are being opened in various industrial centres to bring manufacturers more in touch with requirements and to enable them to examine specifications and samples of army equipment.—A.P.

Five million rupees worth of silver coins, mostly of the demotised silver Victoria rupee denomination, is being sent to the Reserve Bank of India, Bombay, from the Ceylon treasury.—A. P.

R. A. F. Bombs Aerodrome In Holland

Number Of Enemy Patrol Ships Attacked

LONDON, August 21.

Blenheim bombers escorted by fighters attacked an enemy aerodrome near Alknaar in Holland on Wednesday afternoon, states an Air Ministry "communique."

Bombs burst across the target and one of the hangars received a direct hit.

Other Blenheims searching for enemy shipping attacked a number of patrol ships near the Frisian Islands. British fighters carried out several offensive patrols over the Channel and Northern France.

In the day's operations British fighters destroyed three enemy fighters. Two British fighters were lost but the pilot of one is safe.

Further reports of Tuesday's operations show that a total of 14 enemy fighters was destroyed.

RAID OVER BRITAIN

After another day undisturbed by enemy air activity over Britain, a single enemy raider dropped a high explosive bomb at an East-anglian town last night. No casualties are reported.—Reuter.

MENZIES CAN'T GO TO LONDON

MELBOURNE, Aug. 21.

The possibility of Mr. Menzies going to London as Prime Minister has been removed following the decision reached at a meeting of the Labour Party opposition against him leaving Australia.

Labour's decision was announced by its leader Mr. Curtin on Thursday.

Curtin's Statement

In the course of his statement the Labour leader, Mr. Curtin states that the Australian Labour Party urges the British Government to provide the requisite means whereby Australia's viewpoint can be placed before the War Cabinet by other than the Prime Minister.

"I cannot see that the defence of Australia by Australia alone is practicable. We are still dependent on essential equipment from overseas. No possibility exists of a division between Britain and Australia. Both stand for the same thing against the same foes and hope to achieve the same objectives. Australia is Britain's equal partner. Therefore, Britain owes it to Australia to provide the means for her representation—Reuter.

UPROAR FROM LABOUR BENCHES.

CANBERRA, August 21.

There was an uproar from the Labour benches in the House of Representatives to-day when Mr. Hughes, Minister of the Navy, said that Labour's proposal to send a Minister to London other than the Prime Minister was ridiculous.

"Nothing must stand in the way of impressing our vital need," said Mr. Hughes. "Mr. Menzies' place is in London. The only way to lock Australia's door is to induce the United States to throw in her lot and send ships to the Pacific with Britain."—Reuter.

No Compromise With Hitler

Roosevelt On "Clear-Cut Principles" In Joint Declaration

WASHINGTON, Aug. 21.

President Roosevelt's message to Congress reporting on the epoch-making meeting at sea with Mr. Churchill said that the declaration of principles agreed upon there were so clear-cut that they would be difficult to oppose "without automatically admitting willingness to accept a compromise."

These principles, the President added, in a brief special message also would be hard to oppose without admitting willingness "to agree to a world peace which would give to Nazism domination over large numbers of conquered nations."

"Inevitably," added the President, "such a peace would be a gift to Nazism to take breath—armed breath—for a second war to extend control over Europe and Asia to the American Hemisphere itself."

President Roosevelt said that it was perhaps unnecessary "to call attention once more to the utter lack of validity of the spoken or written word of the Nazi Government.

He added that it was also unnecessary to point out that the declaration included, of necessity, "the world need for freedom of religion and freedom of information. No society of the world organised under the announced principles could survive without these freedoms which are part of the whole freedom for which we strive."—Reuter.

1,329,000 Pounds Of U. S. Cheese For Britain

WASHINGTON, August 21.

The Agriculture Department announced the purchase of 1,329,000 pounds of American cheese, 580 cases of eggs and 2,104,000 pounds of dried pears of which the bulk, it is understood, will be exported to Britain.—Reuter.

Canadian Premier In England

Somewhere in Britain, August 21.

"Please tell Great Britain that Canada is with the Empire heart and soul for winning the war and will not spare any effort that is necessary to ensure victory". This message was given by Mr. Mackenzie King, Prime Minister of Canada before he left last Wednesday night for London.

Shortly after landing from the plane which brought him to England (his first flight of which he said he "enjoyed every minute") Mr. Mackenzie King was in touch with his headquarters in Canada and he remained so throughout the day.

Mr. Mackenzie King, attended his first meeting of the British War Cabinet to-day. Afterwards he lunched with Mr. Churchill.—Reuter.

MUNICIPAL CORPORATION BREACH PATCHED UP

BOMBAY, Thursday.

The breach created between the Municipal Congress Party and the Federated Group by the resignation of the members of the Federated Group from the various committees in the Municipal Corporation recently has been, it is understood, patched up.

The Municipal Congress Party has agreed to give five seats on the Statutory Committees viz: five seats on the Standing Committee, five seats on the Improvements Committee and five seats on the Schools Committee to the Federated Group. The total strength of each of the Statutory Committee is of sixteen members.

The Federated Group also has been conceded one seat on Bombay Port Trust and also a seat on the G.I.P. Railway Advisory Committee and a seat on the B.B. and C.I Railway Advisory Committee.

BOMBAY: FRIDAY, AUGUST 22, 1941

DOMINIONS' DEMANDS

There is nothing surprising in the Dominions demanding representation in Britain's war councils. The surprise is rather that the demand did not become pressing much earlier. There was doubtless even in the early months of the war a well-expressed desire on the part of the Dominions to have their say in defining the general principles of the Defence policy. And it was believed that Britain would have to concede fresh powers to them in all matters affecting the Commonwealth as a whole. This encouraged several Liberal leaders in India to demand not the Dominion Status of the Westminster type but of the fuller type which, they felt confident, would follow the close of the war. Since then the war has spread wider and Dominions like Canada and Australia, which are particularly exposed to U.S.S. have become more vocal in expressing their desire for collaboration in defining war policies.

Control Over Policy

Japan's fresh aggression in Indo-China and the Anglo-American Agreement have opened a new phase in the war and have made the Dominions' demand more insistent and urgent. Shortly after the Agreement Mr. Mackenzie King, the Canadian Premier, flew to Britain to discuss the question of collaboration in war effort and it is now announced that his stay there will be of indefinite length and that he will be absent from Canada for several weeks. Mr. Menzies, the Australian Premier, has already visited Britain and said that he found the British War Cabinet "most willing to co-operate." But he feels that casual and informal co-operation is not enough and in his speech in the House of Representatives on Wednesday he said: "I believe each nation in the Empire has its immediate risks, and interests and the best result for the Empire as a whole can be achieved by having matters of high policy discussed by an authoritative spokesman from the Dominion concerned." "It is a matter of great importance," he added, "that Australia's voice should be heard directly in a place where major decisions are inevitably made". Mr. Curtin, the Labour leader, is equally emphatic. He says: "Australia is Britain's equal partner. Therefore, Britain owes it to Australia to provide the means for her representation (on the War Cabinet). This is an emphatic demand and would probably not have been made publicly if there was no prospect of its being substantially conceded. As a matter of fact British papers like the "Daily Mail" and the "Yorkshire Post" have strongly supported the demand, though opinions differ about the particular method of the Dominions' participating in the direction of the war. The "Daily Mail" suggests one representative in the War Cabinet for all Dominions, while the "Yorkshire Post" commends a permanent Dominions Council of representatives from each Dominion to keep close contact with the War Cabinet. Whatever may be the procedure followed, it appears certain that the Dominions will have due share in the control of war policy.

Where Is India?

The question naturally arises if India will have any place in the new scheme. It seems possible that, if an Empire War Council is set up to collaborate with the War Cabinet, some safe Indian may be appointed on the Council. But he will represent only the British Government and not the people of India. Nominally the status of each member of the War Council may be the same. But in practice the representatives of the Dominions will have equal status whereas India will be here, as elsewhere, a Cinderella, carrying out the behests of Britain. The Dominions can dictate terms because they are free, and India can do likewise only when she is free. Mr. V. D. Savarkar asks President Roosevelt if "America guarantees the full political freedom of India within one year after the end of this war." And he adds that "if America fails to do that India cannot but construe this declaration as another stunt like the war aims of the last Anglo-German war, meant only to camouflage the imperialistic aggressions of those who have empires against those who have them not and are out to win them". We are sure there will be no reply from America. But it remains to be seen if Mr. Savarkar will be again satisfied by any explanation that the Viceroy may vouchsafe and be a staunch supporter of his recent "reforms". If the agreement is intended to be applied to India in its entirety that should be made clear beyond any doubt.

Planning Grand Betrayal

According to a despatch to the Independent French News Agency the grand betrayal is already in an advanced stage of negotiations between Vichy and the Nazis. The possibility of Marshal Petain being induced by Admiral Darlan to cede naval and military bases to Germany and, in effect, to surrender North Africa has long been feared. Indeed, it is universally assumed that it was one of the important subjects discussed by President Roosevelt and Mr. Winston Churchill. If the Free French report is correct at least in its main essentials, that possibility is about to take practical shape. On the other hand, however, there is a Reuter's report to the effect that "the Vichy Ambassador, M. Henry Haye, is understood to have visited Mr. Cordell Hull, Secretary of State, in an effort to relieve apprehension regarding the signs of closer collaboration between Vichy and Germany."

It is possible that M. Haye may have made that attempt as he so frequently does—in more than one instance, incidentally, M. Haye's denials and affirmations have been immediately followed by strangely conflicting official statements in Vichy. It is undoubtedly the fact that Vichy is to a certain extent still nervous of possible U.S.A. reaction. This is evident from the last broadcast of Marshal Petain himself. But recognition of the power of the United States and of the value of its friendship does not go to the wholesome extent of acting as a complete deterrent to Vichy's desire to surrender to Germany. The Mashal's detestation of the democratic principle and Admiral Darlan's hatred of Britain together exercise a pull greater than that of honour, patriotism and true national interests. At best, therefore, M. Henry Haye's protestations and pleadings in Washington might mean that Vichy would go somewhat slow with the plan of betrayal. But go it will. In any case it appears necessary that U.S.A., which is vitally interested in North Africa should not only be ready for eventualities but should also declare in clear language as to how exactly it would react.

Scandalous Discrimination

It may seem incredible but it is a fact that when recently an Indian woman doctor applied for a post in the Royal Army Medical Corps, she received from the Director-General of the I. M. S. the reply that she was not eligible for appointment as she was not "of pure European descent". Dr. B. G. Vad, who mentioned this incident at a meeting of the Bombay University Senate, bitterly remarked that such racial prejudice one could expect only in a book like "Mein Kamp." He had reason to feel bitter when after two years of war in which Indians had mingled their blood with Europeans' on the battle field, there could still be such discrimination against Indians in any branch of war service

To prevent discrimination against Indians in the future in the proposed women's branch of the Indian Medical Service Dr. Vad moved a resolution asking for due recognition of the claims of women graduates in medicine of the University in the recruitment to it. The resolution was, of course, adopted by the Senate and let us hope that, as a non-official Indian is now in charge of the medical portfolio, it will be accepted by the Government.

KING-HALL NEWSLETTER

When Will The War End?

The following are cabled extracts from King-Hall Newsletter dated August 14, 1941:—

"Any one who thinks this war will end in 1942 would be well advised to think again. It is much safer to think in terms of 1941 or 1945; then one may have a pleasant surprise."

Members of the House of Commons went away hoping for the best for our Russian allies and moderately satisfied with the state of affairs on the Home Front. We use the word "moderately" because we are glad to say that there is no complacency in Westminster. There are doubts in many minds as to whether our production is as great as it ought to be and it is certain that when Parliament reassembles the House of Commons will continue as vigorously as ever to give the Government constructive criticism. This letter is written before it is possible to form a precise opinion of what has happened in the Ukraine. We can only counsel—as we did last week—great caution in our hopes for the outcome of the Russo-German war. If the enemy succeed in smashing their way through to Odessa, they will deprive our allies of an excellent port and base for naval operations in the Black Sea, but they will find that a large part of the civilian population has been quietly evacuated well in advance, that Russian shipping has been moved to more eastern ports and that careful plans had been laid for the systematic and ruthless destruction of docks, industrial plant, public services and other like facilities which might be of use to them.

★

The difficulties in the way of our giving any substantial aid to Russia are obvious. Our bombing of Western Germany is useful but we doubt if it is interfering with the plans of the German General Staff in Russia. There is division of opinion as to the advisability of our making raids along the coast of Nazi-occupied Europe whilst the enemy is busy in the east. We don't pretend to know in what strength such raids could be made but we are convinced that the material and psychological effects which they could produce would have a very considerable influence on the situation. Such operations would most certainly have a highly beneficial effect on the civilians and troops alike in this country.

★

The Nazis are after the oil in the Caucasus. If they find going in that direction too hard or too slow through Russia, they will attempt another thrust through Turkey. At the moment Bulgarian and Rumanian divisions under German staff officers are being concentrated along Turkey's Balkan frontier. What will the Turks do if the enemy demand free passage through their country? The answer will depend on how much support—especially in the air—we can send Turkey. The position of the Turks might be described as one of "enlightened self-interest with strong pro-British sympathy." They are magnificent fighters and—should their Chatalja defence line prove untenable they have an excellent tank trap in the waters which separate Asiatic Turkey from Europe. But they have little in the way of heavy modern equipment and a negligible air force. Our information is to the effect that the Turks will not hesitate to oppose Nazi passage through their territory if they feel they have any reasonable chance of success. Their strategic position—and our ability to get supplies to them by sea—is prejudiced by the fact that the enemy have possession of all the islands along the Turkish coast between Rhodes and the Dardanelles. Nevertheless, with the first-class aerodromes of Syria and Iraq in our hands it should not be impossible for us to give the Turks sufficient help in the air to enable them to put up a very good fight.

In the Far East the storm may break at any moment. The latest word from Tokio is that the militarist politicians who are in control in Japan are not yet convinced that Britain and America are in a position to go to war over Thailand. The one remaining hope of avoiding a major clash in the Western Pacific would be through a forthright statement that any further Japanese aggression would involve her in war with the combined forces of Britain, the United States of America, Russia, the Netherlands East Indies and China. Hitler's grand strategy involves Japanese co-operation (a) to immobilise the large Russian forces in Eastern Sibera and (b) to oblige Britain and America to divert substantial quantities of precious equipment and supplies, specially naval forces and shipping, to the Western Pacific. In going into Indo-China the Japanese have been able to combine their contribution to Nazi strategy with their own aggressive aims. It is the fundamental characteristic of Japanese policy that whenever the Western Powers are in difficulties the Japanese seize the opportunity to sneak some advantage to themselves in the Far East.

★

We must sound a word of warning to those people who seem to suppose that so much war material is coming from the U.S.A. that we hardly know where to put it. The facts are that although American output can and no doubt will be enormous we question whether at the present time American plus British output of the many important weapons of war is yet up to the German figures. It is only just beginning to dawn on the American people—the Administration have known it all along—that if they want to do more than merely helping us to survive the whole business of war, production will have to be given priority rating which will interfere radically with civilian needs. Till now millions of Americans have supposed that aid to Britain could be arranged as a kind of rake-off from a minor business boom. Our opinion is that the Americans will not take their coats off and strip to the waist until they are actually at war with one or more of the Axis Powers. Given that stimulus, that psychological jerk, the results would be stupendous. When should we see their practical consequences? Probably not until 1943. Anyone who thinks this war will end in 1942 would be well advised to think again. It is much safer to think in terms of 1944 or 1945; then one may have a pleasant surprise. Furthermore, it must be put to the American people that just as we cannot smash the Nazis without all the help the U.S.A. can give us so we cannot maintain peace afterwards unless they stand in with us on that arduous, expensive, and prolonged task. If the U.S.A. and the British Commonwealth do not do their duty by western civilisation and democracy after the Nazi menace and oppression have been banished, then there is no hope for the future. Now is the time for us to recognise that fact.

FRANKLY SPEAKING

In Full Swing

What is believed to be the Nazis' final offensive before winter is in full swing along the whole of their Eastern front. Heavy fighting is reported at points round lake Ilmar, between Leningrad and Moscow and at Gomel half way between Smolensk and Kiev. Here the Nazis claim to have inflicted a "heavy" defeat on the Soviet forces. It is possible that some success has been achieved which as a matter of settled Nazi principle they are exaggerating disproportionately. A break through in this sector may, however, assume strategical importance later—if the Russians allow it. Meanwhile Ukraine remains the vital centre of operations. It is believed in London that Marshal Budenny has already succeeded in withdrawing a very appreciable body of his troops across the Dnieper. This is a success which will take much of the sting out of German victories in the South. This successful withdrawal is virtually confirmed by the Germans themselves. For their communiques admit the existence of Russian bridgeheads west of the Dnieper. Incidentally, it should be noted that Berlin propaganda had destroyed all the bridges on the Dnieper over a week ago.

Japan's Problem

It is a little paradoxical situation though quite intelligible that Japan should be on terms of neutrality and Russia and yet declare that she could not remain indifferent to American supplies reaching Vladivostok. It is intelligible because Japan would like Russia—of course, in the most friendly spirit—to be destroyed rather than resist her allies of the Tripartite Pact. And then there is also the delicious prospect of tearing away a considerable chunk if the Russian bear can only be reduced to a corpse. Japan is, therefore concerned. And one of her important newspapers has, shall we say sounded the alert that no less than eleven ships loaded with aviation oil have either sailed or are about to sail from San Francisco to Vladivostok. The position is rather interesting because the problem of what Japan should do about it is a difficult one for her.

Not Enough

In fair weather and foul the Royal Air Force have been striking non-stop at Western Germany and occupied territories. And they have been doing so with success, too. The blows to Germany's industrial potential are not insignificant and it is noteworthy that in aerial combats over enemy territory itself the balance is consistently favourable to the R. A. F. All this is gratifying enough but, as Commander King-Hall says in his Newsletter: "Our bombing of Western Germany is useful but we doubt if it is interfering with the plans of the German General Staff in Russia." A situation is developing in which it becomes all the more urgent that something should be done to interfere with the plans of the German General staff in Russia. In this connection it is also noteworthy that, according to Reuter's Moscow correspondent, the Russians immediately need hundreds of British and American aircraft.

Nagpur High Court

We understand that the Nagpur High Court has refused permission to a prominent Bombay lawyer to appear before it to argue an appeal. The decision is regrettable especially as the Bombay High Court has always followed a liberal policy in this matter. Mr. Sarat Chandra Bose recently and the late Mr. Sen-Gupta about twenty years ago were, for example, permitted to appear before that High Court. It is desirable, in the interests of the public as well as of the administration of justice, that the principle of reciprocity in regard to appearance of counsel should be recognized by all High Courts in India. We trust the Nagpur High Court will reconsider its decision.

LEAGUE CRISIS

Hooseinbhoy Lalljee's Appeal To Jinnah

Mr. Hooseinbhoy A. Lalljee M.L.A. (Central) has issued the following:—

I am not a member of the Muslim League, but, being an elected member of the Central Legislature for several years and one who has always considered that the real representatives of the people are its true voice, I fully appreciate the representative character of the League, which has a substantial backing of the masses and accord to it the high regard and importance which it deserves. I also admit that a body of its position must have a right to resort to disciplinary measures whenever its discipline or solidarity is threatened.

But with regard to the present crisis which the Working Committee is about to consider, I crave indulgence to submit that the situation calls for utmost prudence as all Muslim interests will have to consider the same and I do hope when all the facts leading up to the acceptance of the membership of the Defence Advisory Council are placed before the League Committee, the President, with his great foresight, will guide the deliberations in his usual statesmanlike manner.

I may, however, say that after the statement of the Secretary of State, doubts which had arisen in the minds of some eminent persons, may now be dispelled. Further, it must be remembered that Muslim League is now a political organisation, well welded and closely knitted and cannot fall to pieces by any single incident or attempt to disrupt it. The Defence Advisory Council is only a new war measure necessitated by war exigency as so many war measures have been. Sir Sikandar and Mr. Fazlul Haque, as heads of two important Provincial Governments, can hardly remain out of it, and even Mr. Jinnah has in the past said that the war should be carried on to a successful conclusion. The two Premiers are closely associated in their daily administrative routine with the carrying out of war measures, directly or indirectly. The A.R.P. activities, membership of War Committees, harnessing of industrial resources to the war production machine, recruitment to the Defence Forces are common fields of activities of the Central and Provincial administrators and as a matter of policy the Punjab and Bengal under the lead given by their respective Government have been pulling their full weights in the intensification of the war effort. It can hardly be said, therefore, that the Bengal and Punjab Ministers have been taken up in their capacity as Muslim Leaguers and not as heads of their respective administration, specially when the Secretary of State, the Viceroy and the Ministers in question have all stated to this effect. It seems that had the Prime Ministers kept the President in touch with developments leading to the formation of the Defence Advisory Committee these misunderstandings would not have occurred.

Whilst the League is faced with this internal crisis, the country is drawing nearer every day to being drawn into the whirlpool of the war. At this juncture I trust the League President, in his usual astute way, will give a proper lead to the Working Committee to take a statesmanlike view of affairs and tide over this difficult period when the desire all round should be to sink all differences and work unitedly to face up the trials which are still to come.

LONDON, August 21.

Mr. Bernard Shaw in an exclusive interview said, "Sir William Rothenstein's portrait of Dr. Tagore should be hung in one of British public libraries."

Mr. H. G. Wells says "I was not an enthusiastic admirer of Tagore but I think there is very great need for intelligent study of India's history and the endowment of a chair devoted for that purpose would do very real service both to India and west. I understand, the India Society whereof Sir Francis Younghusband is the president is holding a memorial meeting on September 30 at which Lord Zetland and Dr. Benes are expected to speak.

Others who are being invited include Lord Halifax, Mr. Eden and Mr. Amery.

Publishers of Tagore's works in London are considering following Shaw's advice, the advisability of presenting national libraries 'Deluxe' edition of Tagore's works. Madame Tussaud's famous wax works also hope to exhibit Tagore's portrait as soon as they obtain a lifesize picture.

"INDIAN ECONOMY AND THE WAR"

Dr. Rao's Criticism Of Govt.'s Attitude

That Australia and Canada were going to gain much greater economic advantage as a sequel to the influence of the present war and that India in spite of its vaster capacity of production and output than any of the British dominions would lag far behind due to the economic policy of the Government of India was the opinion expressed by Dr. V. K. R. V. Rao, Principal of the S. L. D. Arts College, Ahmedabad, in the course of a public lecture delivered by him on "The War and Indian Economy" at the Green's Hotel, on Thursday. Dewan Bahadur Principal Hiralal Kaji, presided.

The speaker stressed the need for the formulation of a positive economic policy by the Government of India which would strengthen the economic conditions of the country. Criticising the present attitude of the Indian Government towards the expansion of heavy industries in India the speaker said that the ship-building industry and the aircraft industry were meted out a very niggardly treatment. The automobile industrial project was torpedoed for want of Governmental encouragement.

It would have been a wise thing for Government to sponsor the organisation of at least half a dozen factories to manufacture trucks, cars and vehicles needed for the country's military equipments. The speaker was not satisfied with the agricultural policy of the Government of India and suggested that a determined drive to increase the country's agricultural production, in view of the soaring prices, should be started under the aegis of the Government.

Drawing a comparative picture of the Great War of 1914-18 and the present world conflagration, the lecturer declared that whereas in the last war industries were hardly developed, there was a greater development of the textile, sugar and match industries of the country when the present war broke out.

From the financial point of view the country was better off in the present war than in the last war.

Political opinion in the country was conscious to a greater extent in the last war, said the lecturer, but this time almost all the national leaders were behind prison bars.

Concluding the lecturer remarked that if the war continued for another two or three years more, prices of agricultural products would rise.

Working Class Cost Of Living Mounts Up

During the month ended August 15, the working class cost of living index number for Bombay, with the average prices for the year ended June, 1934, equal to 100, was 131—five points higher than in the preceding month. The index number for food articles advanced by eight points to 153.

Demand For Division Of India Is Menace To Nation

CALCUTTA, August 21.

"The demand for the vivisection of the country is a menace to the nation. If the Muslims demanded redistribution of the Provinces in such a manner as to give them the Provinces with predominant Muslim population; if they asked for wider powers for such Provinces with option to federate later; if they insisted upon the fundamental rights of cultural and religious freedom of the Muslims and Hindus in all Provinces, one could not ignore the justice of the claims. Late Sir C. Y. Chintamani

EMINENT JOURNALIST & GREAT PATRIOT

GLOWING TRIBUTES PAID TO HIS GLORIOUS RECORD OF ACHIEVEMENTS AT CITY CONDOLENCE MEETING

A resolution recording the grievous loss sustained by the country owing to the death of Sir C. Y. Chintamani and paying tributes to his noble personality and glorious record of achievements, was passed at a public meeting of the citizens of Bombay held under the joint auspices of the Western Indian National Liberal Federation, the Bombay Provincial Congress Committee, the Hindu Mahasabha, the Parsi Central Association and Political League, the Journalists' Association of India, the All-India States' Peoples' Conference and the Andhra Mahasabha at the Cowasji Jehangir Hall on Thursday evening.

Sir Byramji Jeejeebhoy proposed and Mr. S. A. Brelvi seconded that Sir Chimanlal Setalvad should take the chair.

INSPIRATION FOR JOURNALISTS

Sir Chimanlal Setalvad in the course of his speech said that Sir Yajneshwar Chintamani was a remarkable man for, starting with none of the advantages due to birth or high education, he made his way to prominence by sheer ability, perseverence, honesty of purpose, and force of character. He had a natural fascination for journalism for it appears that at the age of 18, he became the editor of a weekly in Madras. "The Leader" of Allahabad under his able editorship had become one of the foremost papers in India and has acquired enormous popularity. Except for a brief period of 44 months when he was a Minister in the United Provinces under the Montague-Chelmsford reforms, he worked ceaselessly as Editor of "The Leader." In Journalism he set a standard and a pattern which would always remain a source of inspiration to younger journalists.

AS MINISTER

Sir Chimanlal said that his career as a Minister was marked with courage, independence and ceaseless work for the benefit of the Province. Sir Yajneshwar took a prominent part in the public life of the country and his views were always heard with respect even by those who differed from him.

Champion Of Popular Rights

Sir Cowasji Jehangir moved the following resolution:—

This Public Meeting of the citizens of Bombay places on record its sense of profound sorrow at the death of Sir Yajneshwar Chintamani.

During his public career, extending over 40 years, Sir Yajneshwar Chintamani rendered unique service to the country in various spheres of public activity—Politics, Journalism, Education, Industry and Social Reform and by his notable achievements made an enduring contribution to the larger political and social life of India.

Endowed with a marvellous capacity for clear thinking, subtle analysis, keen insight and cogent and vigorous expression Sir Yajneshwar Chintamani attained high rank as a Parliamentarian and as an eloquent speaker and keen debater. His wonderful mastery of facts and figures and his phenomenal memory enabled him to secure the position of the true Leader of the United Provinces Legislature well-nigh for a generation. His tenure of office as Minister of Education in his Province was marked by great ability, fearlessness and independence and by all-round progress in the departments under his charge.

Sir Yajneshwar Chintamani possessed genius for constructive statesmanship in a remarkable degree and combined high idealism and glowing faith in the great destiny of India with a lively sense of stern realism.

Sir Yajneshwar Chintamani occupied a unique position in Indian Journalism. He was both a stern critic of Government and a stout champion of popular rights. By his honesty of purpose and fervour of conviction, conscientious support of every thing he believed to be right, his unbending independence, spotless character sound and mature judgment and above all by his supreme regard for moral values in public life, he exercised a deep influence over the thought and action of his generation and won the respect and admiration of people of all shades of political opinion.

The loss sustained by the country owing to the death of Sir Yajneshwar Chintamani is irreparable and the memory of his noble personality and glorious record of achievements will long survive and continue to be a source of inspiration to his countrymen.

Sir Cowasji Jehangir moved the following resolution:—

Guide And Philosopher

Sir Cowasji Jehangir in moving the resolution said that in Sir C. Y. Chintamani, very many of them had lost a dear friend. To many he was a guide and philosopher and to most people in the country a great leader. Coming from a distant province, he had become a distinguished citizen of the United Provinces and had served that province loyally. The Province had no more welcome guest than Sir Yajneshwar.

Mr. Jamnadas Mehta referred to Sir Yajneshwar as an ideal journalist for everyone in the profession to copy for, in his journalism there was no commercialism. He placed conscience above everything and he was never moved by considerations of expediency.

GREAT PATRIOT

Mr. Faiz. B. Tyabji said that the references made in the resolution to the qualities of head and heart of Sir Yajneshwar were well deserved. One could not help remembering the services rendered by him to the nation as the great editor of the "Leader" and as a patriot.

Mr. K. Natarajan said that Sir Yajneshwar was a remarkable man. It was not only that he had no advantages but he had positive disadvantages which he overcame quietly, firmly, but without any bravado and without any show of heroism.

Mr. Dhirajlal Desai said that though Sir Yajneshwar differed from Congressmen he never forgot that he was an Indian and that it was his duty to co-operate with his brethren in the task of freeing his country from bondage.

Rao Bahadur S. K. Bole said that Sir C. Y. Chintamani was born with a pen in his mouth. Politician and journalist of the front rank as he was, he was also an orator of that no mean order. He maintained the traditions of Dadabhai Naoroji, Sir Phirozeshah Mehta and Gopal Krishna Gokhale.

The resolution was passed all standing.

Dr. G. V. Deshmukh in moving a resolution authorising the Chairman to send a copy of the resolution to Lady Chintamani and other members of the family said that Sir Yajneshwar was an unusual person. His loss at this particular juncture was the more to be regretted as his analytical abilities would have been of special help at a time when constitutional issues are agitating the country.

Mr. Mavji Govindji Seth in seconding the resolution said that the ranks of the great patriots of India had become thinner by the sad demise of Sir Yajneshwar but the record that he had left behind and flashes of his soul would always inspire the coming generations.

Mr. D. G. Dalvi in supporting the resolution recalled incidents illustrating Sir C. Y. Chintamani's prodigious memory and his courage as a journalist.

The resolution was passed unanimously.

VOTE OF THANKS

Sir Vithal Chandavarkar proposed a vote of thanks to the chair.

Mr. N. C. N. Acharya in seconding the vote of thanks said Sir Yajneshwar became a voluntary exile from his home province, as it were, to show what a man of his parts and abilities could do.

Mr. B. G. Horniman who was to have been one of the speakers at the meeting was prevented by illness from attending the meeting.

Mrs. Sarojini Naidu, Mr. K. M. Munshi and Mr. J. R. Gharpure had sent messages associating themselves with the resolution.

Mrs. Naidu in the course of her message had stated:—"His vigorous and versatile mind, his massive and meticulous knowledge of men and events, of dates and statistics, his rugged and uncompromising integrity and independence of character as a publicist; his brilliant and intrepid gift of journalism, his passionate devotion to his country made him one of the most outstanding figures of our times."

According to the agreement reached by these two leaders, out of 16 seats on each of the three statutory committees, the Federated Group, which consists of 28 members in a House of 117, will get five seats. The Congress Party's strength to-day is about patched up, thanks to the efforts

VICHY ALLEGATIONS AGAINST BRITAIN

VICHY, August 21.

A Jibuti dispatch to the Vichy News Agency on Wednesday states that "British warships have on several occasions in the past few days violated French territorial waters off the coast of French Somaliland."

The Jibuti message to Vichy News Agency makes no mention of unconfirmed reports from certain sources that British destroyers penetrated into Jibuti harbour.

In return for the loan of the bases German occupation troops will be partially withdrawn and the remainder would occupy France as a "friendly country" similar to the system now in force in Italy.

After the war British possessions in Africa notably Nigeria, Sierraleone and the Gold Coast would be attached to the French Empire which will be exploited jointly by Germany and France.

Vichy would cede Alsace and Lorraine to Germany and as compensation would receive part of southern Belgium after the war.

She would not be called on to make territorial concessions to Italy and would keep Tunisia while Italy would receive Egypt in return for renouncing her claims to Tunisia.

It is pointed out that these terms mean that Germany would gain almost complete control over the French Empire and its naval and military establishments.

Negotiations are well advanced, adds the independent French news agency.—Reuter.

Editor Fined Rs. 1,000 For Contempt

(Before the Hon'ble Mr. Justice Kania)

This was an Application by way of notice of Motion taken against Chimanlal Wadilal Shah, who is the Editor, Printer and Publisher of a Gujrati daily called "Matru Bhoomi," for contempt of Court.

In a certain suit an application had been made for the appointment of a Guardian-ad-litem of a minor defendant. This application was heard in Chamber and disposed of by Mr Justice Kania on 7th July last. In the issue of the "Matru Bhoomi" of 4th August 1941 the Respondent C. W. Shah was alleged to have published a highly coloured account of these proceedings which had taken place in his lordship's chambers. On 13th August, the Applicants obtained a Rule against the Respondent to show cause why a warrant should not be issued against him.

Counsel for the Respondent submitted that the sole test was whether or not this publication had prejudiced the fair trial of this matter, and he submitted that it had not, —even assuming that the report was not very accurate.

In his Judgment, His Lordship relied on a decision of the Justice Tarapore-walla, confirmed in appeal by Sir Norman Macleod (28 Bom. L.R. 148) as laying down that all chamber matters were forbidden from being published in newspapers without the permission of the Chamber Judge. His Lordship went further and said that it had been ruled by previous authorities that Chamber matters relating to wards and lunatics were of a private or domestic nature with which the public were not concerned and were therefore not matters for publication in newspapers.

With regard to the publication itself, His Lordship held that it was not a correct report of the proceedings, that it contained comments and was made in a partisan spirit and therefore likely to prejudice the fair trial of a pending matter. His Lordship felt that it was a very gross case of contempt of Court because the Respondent's intention was to satisfy the morbid curiosity of his readers by sensational details.

His Lordship therefore fined the Respondent Rs. 1,000 for contempt of Court and further ordered him to pay the costs of the Applicant in respect of this Notice of Motion as between attorney and client,—including costs reserved.

The Advocate-General, Mr. M. C. Setalvad, with Mr. G. W. Joshi, instructed by Messrs. Mulla and Mulla appeared for the Applicant.

Mr. C. K. Daphtary with Mr. H. G. Mahimtura instructed by Messrs. Chandrasen and Co. appeared for the Respondent.

Social Vice Case:

BOMBAY, Thursday.

The court room and the galleries were packed to capacity to-day when the trial before the Criminal Sessions of the Bombay High Court of Banubai alias Luxmibai Kohli an Iranee woman and her Hindu husband Motiram Choitram Kohli, who are charged with importing into British India a girl from Iran.

The trial is being held before Mr. Justice N. J. Wadia and a common jury.

Examined by Mr. B. D. Booarivalla, Counsel for the prosecution, the uncle of the girl deposed as to how he came to learn of the girl's presence in Bombay by means of a letter which he received from a relative in Iran.

The witness described the circumstances in which he ultimately got the girl rescued from the alleged brothel of the two accused in a building at Mahim.

On special committees, out of 24 seats on each of them, the Federated Group will get 8. The Congress will have 12 seats and the remainder will go to Independents. Out of the two seats allotted to the Corporation on the Board of the Port Trust, one will be retained by the Congress and the other will be reserved for a representative of the Federated Group. Out of the two seats on the two Railway Advisory Boards, one will be reserved for the Federated Group.

Beauty will reward you

Any day, clear, youthful complexion is the reward of every woman who realizes that Nature needs her help. Every night while we sleep Nature meant the outer layer of skin gradually to disappear as it was worn out, but often minute particles of this old, worn-out cuticle clog up the pores and positively stifle the young, growing skin. Then complexions grow dull and patchy. The way to prevent it is to massage your face and neck each night with pure Mercolized Wax. Then, while you sleep, the Mercolized Wax will be gently, imperceptibly dissolving away every clogging particle of the old, weather-beaten skin and giving the fresh, new skin beneath a real chance. But be sure to get pure Mercolized Wax (containing no animal fat), for nothing else works in quite the same natural way. Any chemist, store or bazaar will supply it.

ARMS USELESS ON A WET DAY

Rheumatism made Work a Torture!

Here is a remarkable instance of the manner in which damp weather can affect the joints of one who is subject to rheumatism.

"I had been suffering from rheumatism very badly," a man writes, "And had had such pains in my joints that I could hardly bear it. It used to be terrible on a wet day. I did not know how to use my arms, and when I was at work it was real torture. I tried two different remedies for rheumatism, but I was still as bad after the treatment.

"Then I was told to try Kruschen Salts, and after using one jar I found relief. So, of course, I have kept on with it, and am now thoroughly better and have never felt so fit for years." —S.B.

If you could see the knife-edged crystals of uric acid under the microscope, you would readily understand why they cause those cutting pains.

And if you could see the way Kruschen dulls the sharp edges of those crystals, then dissolves them away altogether, you would understand why it gives such quick relief from pain.

Did you note the tone of Mr. Menzies when he put forward the Australian demand that Australia must have a voice on the War Cabinet from which the destinies of its sons is guided. This is going to be the greatest blow to British Parliamentary prestige viz., that a Dominion should be on a Cabinet directing the Mother Parliament. And to think that while Australia wants to be on the War Cabinet, India just wants its own little freedom.

JOHNNY DOWNS, INGRID BERGMAN AND WARNER BAXTER IN 'ADAM HAD FOUR SONS' AT NEW EMPIRE.

Fine Story Of Family Feeling

"Adam Had Four Sons" At New Empire

BY 'CHRONICLE' FILM CRITIC

ADAM had four Sons is a Columbia production starring Warner Baxter and Ingrid Bergman and coming to New Empire from to-day.

Ingrid Bergman, who recently was starred in 'Rage in Heaven' with Robert Montgomery is a Swedish actress, who has entered a big film career after her country woman, Greta Garbo. She acts as governess of the four sons of Adam and when the latter has fallen on bad days, she has to leave the family, she has done so much to bind up.

Her understanding, courege, devotion to Adam and his Sons, anxiety for their well being and loyalty to his dead wife are such moving virtues that she haunts you as saintly, lovely person in the role of Emilie, the Governess.

Mention must be made of Susan Hayward who also gives a captivating performance in the role of Hester, the girls who first bewitches the eldest of Adam's sons, then the next, lies low for more victims and plans even to capture Adam Stoddard himself with her womanly wiles.

With the end of the last world war better days return for Stoddard family and the governess is back home to look after the four sons, who need looking after even more now than they needed when they were just boys. The governess plays her part well and actually governs everything for the good of every member of the Stoddard family. Her sublime love for Adam, the chief of the family is of an extraordinary type.

Featured in this memorable film are Susan Hayward, Fay Wray, Helen Westley, Richard Denning, Johnny Donns and Robert Shaw, Gregory Ratoff has directed the picture to the entire satisfaction of people of good taste.

'FOUR MOTHERS' AT METRO

Third Of Lemp Family Charming Series

THE opening shot of the new Warner Brothers film "Four Mothers", coming to Metro House from to-day reunites the famed Lemp family for the third time, is the scene that has come to be the trademark of the pictures.

It is the long camera shot that moves from the street to the Lemp house, near the front window then continues inside where Claude Rains is playing the flute and conducting his "daughters" (Priscilla, Rosemary and Lola Lane and Gale Page) in a music session. This time, however, the concert is interrupted by Priscilla's one-year-old "daughter" who joins the group by banging the piano.

Director William Keighley thinks it is the first time that an identical camera shot has been purposely used in a group of pictures to trademark their relationship.

All the favourites of the Lemp family are back in this newest adventure. The story is more dramatic than its predecessors because now the Four Daughters are Four Mothers, yet it contains much sparkling humour.

The cast stars the Lane sisters Priscilla, Rosemary and Lola together with Gale Page as the Four Mothers Adam Lemp, honest, respected citizen of Briarwood and devotee of Beethoven, is played by that grand actor, Claude Rains. His wise, philosophical sister, Aunt Etta, is portrayed by May Robson. Jeffrey Lynn, Eddie Albert, Frank McHugh and Dick Foran are cast as the husbands who are ideally suited to their wives.

Adam Lemp persuaded many of the townfolk to invest in some property in Florida that his son-in-law Ben (Frank McHugh) owned. When a hurricane came along and devastated the area, Adam felt as if he were responsible for the loss and sells his property in Briarwood in order to repay his friends.

Revenge Story At Capitol

"The Return Of Frank James" Stars Fonda

FILMED in spectacular technicolor, 20th Century—Fox's "The Return of Frank James" comes to the Capitol on Friday.

Henry Fonda, who created the part of Frank James, Jesse's grim older brother in "Jesse James", is cast in the title role. Others appearing in the production, who were also featured in "Jesse James" include Henry Hull, John Carradine, J. Edward Bromberg, Donald Meek, Ernest Whitman, Charles Tannen and George Chandler.

The cast is completed by Gene Tierney and Jackie Cooper, who are featured, and such popular favourites as Eddie Collins and George Barbier.

The story of "The Return of Frank James" is the story of Frank's determination to avenge the cowardly murder of his brother Jesse, shot in the back by the traitorous Ford brothers. Railroad money paid the Fords, and a gubernatorial pardon set the Fords free after a jury had convicted them, so Frank realizes the only way he can revenge Jesse is to return to outlawry.

Always maintaining a high pitch of excitement, the picture then follows Frank over all the lawless West, with tremendously stirring scenes of robbery, murder, gun-fights, man-hunts, train holdups, escape and pursuit.

HORROR FILM AT REGAL

Lon Chaney Jr. As 'Man Made Monster'

MERGING blood-freezing terror with powerful drama, Universal's new horror sensation, "Man Made Monster," will be the attraction at the Regal Theatre starting to-day.

Heralded as something new and startling in the field of screen shockers, the new production tells what happens when a scientific genius, attempting to prove a theory that human life can be motivated and controlled by electricity, transforms a normal human being into a supercharged monster.

Lionel Atwill, veteran of numerous Spine-thrillers and specialist in sinister portrayals, essays the role of the scientist, Lon Chaney, Jr., in a characterization reminiscent of those of his famous father, portrays the monster Anne Nagel, Frank Albertson and Samuel S. Hinds have other major roles.

Directed by George Wagner "Man Made Monster" was adapted for the screen by Joseph West from the story, "The Electric Man," Jack Bernhard was the associate producer and Elwood Bredell officiated at the camera.

F. A. B. Film At Six Cinemas

The Film Advisory Board is releasing from to-day one very interesting topical, "Tools for the Job." This short film is being shown at Metro, Regal New Empire and Cantol in the Fort, Palace at Byculla, Paradise at Mahim, and Bandra Talkies at Bandra.

The military effort, that is the augmentation of the army, navy and air force, naturally come in for review. So does the response of doctors, nurses, fireman and A.R.P., volunteers generally.

The principal emphasis is laid, however, on the vast industrial effort so vital to military success. Arms and ammunition, cotton and woollen textiles, steel and machine tools and hundreds of other industries and crafts, large and small, come in for review; and they make a pageant of intense human activity as rich and impressive any spectacular pageant in history.

DEANNA DURBIN IN "NICE GIRL?" AT PALACE

"Nice Girl?", Universal's gay musical romance starring Deanna Durbin will be shown at The Palace this week. Easily Miss Durbin's most mature vehicle, and one of her most entertaining, the new picture has moments of romance, hilarity and music as moving as any in all her eight previous successes.

Deana appears as a small-town New England "nice girl", who lives with her father and two sisters. Robert Stack is her boy-friend, who is more interested in automobile engines than in romance. Tired of her "nice girl" role Deanna goes on an exciting romantic adventure with a young New Yorker, portrayed by Franchot Tone. Her actions make her subject of a town scandal, and it is only through a combination of hilarious circumstances and situations that her name is saved.

Narrow Price Movement In Share Bazar

OPERATORS CAUTIOUS PENDING DEVELOPMENTS

Small Irregular Gains In Active Counters

Bombay: August 21.

The local Share Bazar failed to show any definite price tendency as the market is becoming cautious. Those who hold bullish views have enough holdings and seem reluctant to increase risks pending developments. The industrial outlook is encouraging and prices have also advanced in full response.

However there exists a section who believes that unless prices decline and come in line with cash quotations it will be a difficult task to push up prices. Operators are gradually unloading their holdings with a view to replace in case prices decline to attractive levels.

On Wednesday the Wall-Street market was steady. U. S. Steel shares closed 1/4 up at 57 and Anaconda Copper Mining shares gained 1/8 at 28 3/8. General Motors improved 1/8 at 36 3/4 dollars.

In the local market Tata Steel Defd shares opened at Rs. 2117/8 and after declining to Rs 2112 improved to Rs. 2121/4, but again reacted to Rs 2117/8. Ordinary shares opened at Rs. 392 and were steady at Rs. 393. Bombay Dyeing shares opened at Rs. 1220 and after declining to Rs. 1215 improved to Rs. 1221, but reacted to Rs. 1217. Bombay Burma shares opened at Rs. 447 and after improving to Rs. 450 steadied at Rs 448 Associated Cement shares changed hands at Rs. 153/8. Towards the close the tone of the market was quiet.

NEW YORK COTTON.

New York, August 21

The New York cotton continued to move up following the expectation of President Roosevelt signing freezing bill but outside interest was somewhat restrained with resultant slow changes.

Trading in October began at 16.60 i.e. four points higher than the last close.

Prices advanced on scattered trade and spot house buying but demand from other sources was lacking resulting in narrow changes.

The following are opening ranges:—
October (16.24/24) 16.60/80
December (16.44/44) 16.80/80

Parsi Handicrafts Exhibition

BOMBAY, Thursday.

The Parsi Handicraft Exhibition organised by the "Parsi Unemployment Fund" at the premises of the Sir Sorabji Pocnkhanavala Welfare Industrial Institute, Queen's Road, was declared open on Wednesday last. The object of the exhibition is to help the poor Parsis to bring forward their wares for sale. In addition to various hand-made articles of household utility such as sheets, towels, napkins, caps, table cloth, dusters, etc., the exhibition contained stalls of cotton and woollen pieces, from Parsi Mills, and the well-known products of Messrs. Tomko, Writers and Godrej. Brisk sales were going on on the very first day.

The exhibition remains open for five days.

GOLD AND SILVER

Bombay: August 21.

Yesterday London Gold was unchanged at £8/8/0. Dollar Sterling cross rate was 4.02 1/2 to 4.03 1/2 at London and 4.03 1/4 at New York.

London Silver quotations were unchanged with spot and forward placed at 23 7/16d. New York spot silver was also unchanged at 34 3/4 cents. London Bombay spot and forward Silver parity was Rs. 62/8. In the local market business remains neglected and prices are fluctuating within a narrow range. The market was quietly steady with scattered buying which tended hardening of quotations which were as under:—

	GOLD	SILVER
Ready	Rs. 42 1 6	62 13 0
Bhadarva	Rs. 42 1 3	62 13 6
Aso	Rs. 42 0 6	62 14 0

Sovereigns: Rs. 28/7/6.

BOMBAY COTTON

Bombay: August 21.

Following a rise of 35 points in New York cotton futures the local market opened steady at Rs. 261/8 for Broach A/M delivery but declined to Rs. 260/4 on scattered liquidation. At the decline there was improved demand and prices improved to Rs 262/4, but again reacted to Rs 261/8. The market was steady at this level with a moderate turnover. Professional operators are still holding bearish view of the situation and are unwilling to cover sales even though prices are unduly depressed as compared with American cotton. In view of war developments it is risky to express definite opinion but present prices seem reasonable when looked upon with aspect of consumption of long staple cotton. Bears have a control over the market and will make all attempts to check improvement in prices.

Thereafter prices fluctuate within a narrow range and Broach A/M after declining to Rs. 260/8 improved to Rs. 261/8. Towards the close there was scattered selling owing to settlement of monthly Teji-Mandi. The market closed at 5 p.m. as under:—

Broach D/J	Rs. 272/8
Broach A/M	Rs. 260/8
Oomra D/J	Rs. 255/8
Bengal D/J	Rs. 151/0

PARSI J. P.s REJECT IT!

Fate Of Matrimonial Court Reform Committee Recommendations

At a meeting of the Parsi Justices of the Peace held on June 10, a committee, consisting of 14 members, was appointed 'inter alia' to consider whether the present system of nomination of delegates of the Parsi Chief Matrimonial Court was satisfactory, and if necessary to suggest ways and means of improvement therein.

The report of the Committee was considered by another meeting of the Parsi Justices of Peace held on Thursday evening at the J. J. Parsi Benevolent Institute, Sir J. Boman-Behram presided.

The report of the Committee stated among other things that the present system of electing delegates was somewhat haphazard, and did not always result in the selection of the most suitable persons, and it therefore require dimprovement.

After describing the defects of the system the Committee suggested that after procuring the names of all the candidates standing for election, Parsi Justices of the Peace should meet some day before the date of the meeting fixed by the Trustees for holding such election, and pick out the most desirable candidate or candidates, as the case might be, for such election. A still better procedure, according to the Committee, was, that the most suitable person or persons recommended by the Justice of Peace be approached, and prevailed upon to stand as candidate or candidates, to fill up such vacancy or vacancies; and the Committee was confident that with the required collective backing of the Justices of the Peace most fit persons would not hesitate to stand for such election.

Sir J. Boman-Behram moved the adoption of the report.

Mr. N. Dumasia put forward the amendment that the report be recorded. He pointed out that the recommendation of the Committee would serve no good purpose.

Mr. M. Joshi moved that the whole issue should be reconsidered by the Committee.

When put to the vote, Mr. Dumasia's amendment was carried, and the recommendations of the Committee were thus dropped.

'C. J.' To Preside Over Parsi Matrimonial Court

It is understood that the Hon. Sir John Beaumont, Chief Justice of Bombay will preside over the Parsi Chief Matrimonial Court on September 15 in lieu of Mr. B. J. Wadia who has now retired.

This is the second instance in which a Chief Justice of the High Court will preside over the Parsi Matrimonial Court, the first instance being that of Sir Lawrence Jenkins who presided over the Court from 1900 to 1903.

PROSTRATE for a whole day with GASTRIC PAINS

For over 20 long years, Miss B. C. had suffered with a gastric stomach. Her trouble was a tragedy, a handicap in work and pleasure. "The attack would start suddenly," she writes, "then I would be prostrate, and vomit the whole day. Nothing ever stopped it." But at last, she found the remedy that has brought relief to so many thousands. "I have just finished a bottle of your powder and the relief has been great. Many friends are surprised at the very marvellous result."

MACLEAN BRAND Stomach Powder always brings this sure relief, because its perfectly balanced alkalis make burning stomach acid harmless as water. Whatever your trouble is — Indigestion, Wind, Flatulence, Biliousness, even the more serious Gastric Ulcer, remember—one spoonful will stop stomach pain. But be sure to see the signature "ALEX. C. MACLEAN" on carton and bottle, and the red seal on the carton, before you buy. None other is genuine Maclean Brand. Never sold loose—only in bottles in cartons (powder or tablets). Sold by all Chemists and Stores.

Look for the Signature— Alex. C. Maclean

Roosevelt's Appeal To Strikers To Resume Work

AMERICAN OUTLOOK UNDERGOES TRANSFORMATION AFTER CHURCHILL-ROOSEVELT TALKS

WASHINGTON, August 21.

Washington is no longer the city it was before President Roosevelt headed into the Atlantic to meet Mr. Churchill.

Their conference has wrought changes that are already very noticeable and only just beginning. A grimmer and more serious mood characterises everything with which the administration and defence organisations are concerned.

Those attending the President's press conference on Tuesday could not help noticing how frivolity often a feature of these conferences, had given way to a note of urgency and seriousness.

Reports on the conference published today have made a deep impression on the public here.

President Roosevelt's blunt statement that they have a long struggle on their hands and that war may go on through 1943 has effectively dispelled all easy optimism.

His reference to President Lincoln's statements on the Civil War will undoubtedly do much to hammer home the nail he struck on head by saying how deeply the United States is concerned in the battle of the Democracies against Nazism.

The physical results of the Churchill-Roosevelt conference are already visible in Lord Beaverbrook's talks with heads of the United States defence production, and in the new system of delivering United States' aircraft to the Middle East.

But the more important results of the conference are believed by many observers here to be a more realistic attitude towards war, its seriousness and probable length and beginning of the destruction of the deeprooted idea that the passage of the Lease and Lend Bill had brought peace for the United States and defeat for Hitler.

Roosevelt's Appeal To Workers

President Roosevelt has asked both sides in the strike in the Federal Shipbuilding Company's yards here to resume work forthwith.

He has urged them to put the importance of national defence before their points of difference.

It will be recalled that the strike which began on August 7 involves 18,000 men working on over 493 million dollars worth of war and merchant ship orders.

The Vice-President of local Congress of Industrial Organisations Union, Peter Flynn, has urged Government to take over the yards "operate them in the interests of national defence."

Plan To Relieve Britain's Dollar Position

It is learned authoritatively that the United States' Treasury Department is co-operating with British officials to relieve Britain's dollar position and is working on a plan whereby the United States' Government would assume the outstanding payments under the Lend and Lease Act on a certain percentage of orders contracted for by the British before the adoption of the Act.

However, it is stressed that the proportion of such payments to be taken over by the United States is not yet fixed and well-informed quarters are inclined to feel that the report in the "Wall Street Journal" that the United States' Government would take over one-third of such payments is exaggerated.

Drastic Petrol Rationing Measures Likely

There is only ten days supply of petrol in the Eastern States declared Ralph Davies United States Deputy Petroleum Co-ordinator on Wednesday, who said that the long predicted oil shortage in the East had finally arrived.

Describing it as a "perilous situation" Mr. Davies said that more drastic measure might be necessary beyond the limited petrol rationing now in operation.

The Vichy Ambassador, M. Henry Haye, is understood to have visited Mr. Cordell Hull Secretary of State, in an effort to relieve apprehension regarding the signs of closer collaboration between Vichy and Germany.

Mr. Haye is also said to have shown Mr. Hull a collection of American newspaper cartoons which he complained insulted Marshal Petain.—Reuter.

CONSTITUTE PERMANENT WAR COUNCIL, URGES YORKSHIRE POST"

LONDON, August 21.

The suggestion that a permanent Dominions Council might be established in London is made in "Yorkshire Post" leader.

It is most natural and right, it says, that there should be in the Dominions an increasing demand for closer contact with the War Cabinet in London.

The paper notes the difficulty mentioned by Mr. Menzies that if all Dominions claim such a right the British War Cabinet will be very greatly enlarged and adds, "The problem is urgent. Could a solution of it be found by establishing in London a permanent Dominions Council with members drawn from among the most eminent Dominions statesmen who could be spared from their duties at home?

If this body could work in close and constant contact with the British War Cabinet and if Mr. Churchill could periodically attend the meetings, considerable advance towards a full and practical co-ordination of the Empire's total war effort and war policy would surely be made.

"Daily Mail's" Plea

The "Daily Mail" dealing with the same question says, "To-day the actual perils threatened are almost as ominous to Australia as to Britain. Newzealand lies under a menacing shadow

The battle of the Atlantic reaches the shores of Canada and more than half of Africa is a cockpit where South African troops, relatively near to their own terrain, are in daily combat.

The "Daily Mail" adds. "The people of these Dominions are now directly concerned for their own safety as we are. They have given everything unstintingly and unreservedly to the common cause. They are entitled to direct participation in the war direction."

The problem, concludes the "Daily Mail," "is not insoluble. Appointment now to the Inner War Cabinet of one representative of all Dominions——and we suggest that Mr. Menzies, if Australia can spare him.——would be generally welcomed here as an addition to our strength and in the Dominions as proof of their direct concern".—Reuter

DOES 8-POINT DECLARATION COVER INDIA'S CASE?

The President of the All-India Hindu Mahasabha has cabled President Roosevelt enquiring whether the joint Anglo-American declaration in regard to war aims covered India's case too.

The following is the text of the cable:—

"As President of the Hindu Mahasabha, the All-India Hindu body, I exhort you to declare explicitly if the Anglo-American announcement of war aims covers India's case and whether America guarantees the full political freedom of India within one year after the end of this war.

If America fails to do that India cannot but construe this declaration as another stunt like the war aims of the last Anglo-German war, meant only to camouflage the imperialistic aggressions of those who have empires against those who have them not and are out to win them".—A. P.

Hundreds Of Germans Going To Dakar

French Officers In African Colonies May Be Replaced By Nazi Employees

LONDON, August 21.

Doctor Klanbe, Head of the German Mission in Senegal often travels from France to Dakar in his private plane, states Free French Headquarters.

The Mission comprises many hundreds of members. Its action is no longer limited to Dakar, but has spread to all circles in the interior in which a German is placed at the side of each French official.

Everybody is under the impression that the latter may immediately be replaced by the former.

All colonial officers and administrative officials are very indignant about this form of collaboration.

In Morocco anxiety is felt amongst officers and non-officials because of an important concentration in Spanish Morocco. The former firm of Mannesman has just been set up again in riff.—Reuter.

Madras A. I. T. U. C. Condemns Burma Agreement

MADRAS, Aug. 21.

A resolution characterising the Indo-Burma agreement as humiliating to Indian nationalism and harmful to Indians and Burmans alike was passed at the annual general body meeting of the Madras Provincial Trade Union Congress.

The meeting also passed a resolution condemning what it called the apathy on the part of the Government of Madras with regard to the strike by bus workers in the city and their failure to implement the findings of their own Communique.—A. P.

13-Year Old Girl To Be Transported For Life?

GAUHATI, Aug. 19.

Jalimannessa, a 13-year-old girl, and her grandfather, Jaynal Seikh, have been sentenced to transportation for life by the Sessions Judge of Assam valley.

According to the prosecution the accused persons are alleged to have poisoned a two-year-old child with arsenic as a result of which it died

The Sessions Judge has recommended clemency to the girl in view of her tender age. He has held that she was a mere tool in the hands of her grand father.—A. P.

IF U. S. ENTERS WAR

It Will Be Another Power Which Will Force Her, Says Capt. E. Roosevelt

LONDON, August 21.

Capt. Elliott Roosevelt, the second son of the United States President, told a Press Conference here to-day that he was here on a mission connected with the United States Air Force. He expects to be here until the middle of the next week.

Asked whether Churchill-Roosevelt meeting had brought war closer to the United States he said: "May be it won't be the United States but some foreign power, which will force us into the war."

He believed that United States' ships would defend themselves if they were attacked. "There is very great confidence throughout all branches of the United States services in Britain's ultimate success," he declared.

Referring to the feeling in some parts of America that since Russia had entered the war both Britain and America had slowed down in production, possibly owing to a feeling of complacency, he said "I have not found that as marked as I had been given to expect."

He told the conference that he was present at the Churchill-Roosevelt Atlantic meeting. "I do not know if they will be meeting again soon."

Capt. Roosevelt, while here, is with the United States Air Squadron, which shares an airfield with the Canadian Air Force.—Reuter.

Atlantic, No German 'Mare Nostrum'

Anglo-American Fleets Waiting To Give Headache To Nazis

NEW YORK, August 21.

The western hemisphere portion of the Atlantic is being "slowly but surely cleared of German submarines and surface raiders", writes Mr. Joseph Driscoll, the "New York Herald Tribune" correspondent at sea with the United States Atlantic fleet of neutrality patrol.

Mr. Driscoll who has had experience with convoys says, "Thanks to our intervention the ocean is somewhat safer this side of the Atlantic than it was a few weeks ago.

This improvement has been accomplished without battle thus far between American and Axis forces although Americans do not go to sea without their battle stations.

Manned both day and night. They don't venture forth with a chip on their shoulder looking for trouble, but neither are they unprepared for any dire contingency.

If the Italian and German fleets had any idea of turning the Atlantic into another "mare nostrum" they are doomed to disappointment for the Anglo-American fleets are co-operating to give them a headache and make it read 'mare nauseam'."

Nothing Has Happened To Alter Congress Position

TRUST THE MAHATMA, SAYS SARDAR

BOMBAY, Thursday.

The following is the full text of Sardar Vallabhbhai's statement.

"It is no pleasure to me to have been released for reasons of health. Physical fitness is one of the many essential qualifications of a satyagrahi and I had hoped that I would not be lacking in it.

I took great care of my health in prison, and thanks to Dr. Gilder's affectionate attention, I was looking forward to an indefinite period of rest until our goal was won.

But my intestines suddenly ceased to function properly. For weeks I remained on milk and fruit, but there was no relief.

It was Dr. Gilder who suspected a polypus and was firmly of opinion that no treatment was possible without a correct diagnosis which again was impossible without a clinical examination.

Government were good enough to remove me to the Sassoon Hospital and the Civil Surgeon with perfect promptitude submitted his report.

GOD'S WAYS ARE INSCRUTABLE

I should gladly have undergone an operation in the Sassoon Hospital and in case of its successful termination should have loved to get back to my cell in the Yerwada Prison. But it was not to be, and it is a great wrench to me—this separation from my dear friends who are still there. God's ways are inscrutable and one has but to bow His will.

I must express my thanks to all those who in the prison and in the hospital treated me with unfailing care and attention during my illness.

I will say nothing regarding the political situation beyond this that I have been carefully studying the newspapers in jail and I am sure nothing has happened to alter the Congress position which is essentially sound. Congressmen, inside prisons and outside, have the satisfaction in the knowledge that the country has at the helm of affairs one in whose judgment and guidance they have implicit faith and who can be trusted to carry us unerringly to our goal.

But I must refuse to discuss politics at the present moment, as my immediate duty is to get well, if God wills it, and then to place myself again at Mahatma Gandhi's disposal.

I am thankful to all friends for their kind inquiries and I can assure them there is no cause for anxiety".

Speak Against Germany—And Get Hanged!

LONDON, Aug. 21.

"Any one speaking against Germany will be hanged" is part of an order issued by the Gauleiter and Stadthalter of Alsace, Robert Agner, an extract from which is quoted by Free French sources here to-day.

The order also states: "As from April 27, 1941, anyone who speaks French, although he knows the German tongue, will be immediately arrested and punished by one year in a concentration camp.

Anyone listening to ... wireless stations will be immediately arrested and punished by two to five years in a concentration camp. As from June 1st, 1941, anyone wearing the Basque beret of whatever colour with or without peak will be immediately arrested and punished by one year in a concentration camp."—Reuter.
